ST. LAWRENCE HIGH SCHOOL

A JESUIT CHRISTIAN MINORITY INSTITUTION

First Term Test - 2018

Sub : **Nature Study**

Class : **2 A, B & C**

F.M. : **45**

Duration : **1Hr 30 mins**

Roll No:

Date : **27.04.2018**

(Marks will be deducted for untidy work, spelling mistakes and work not done in systematic manner).

Model Answers

SECTION - A

1. Fill in the blanks: (4)

- a. Small bushy plants are called shrubs
- b. Tulsi is known as the queen of herbs.
- c. Most birds build their nest on trees.
- d. Curd is made from milk.

2. Name the following: (3)

- a. We get silk from silkworms.
- b. The skin of some dead animals is used to make leather.
- c. Wild animals live only in the jungle/forest.

3. State true or false (3)

- a. Shrubs have thin brown stems. True
- b. Squirrels live in burrows. False
- c. Animals such as cow help to plough the field. False

SECTION - B

4. Answer the following: -

- a. What do plants use to make food? (3)

Ans: Plants use air, water and sunlight to make food.

- b. Write three uses of wood.

Ans: The three uses of wood are boat, furniture, paper.

- c. What are omnivores? Give two examples. (1+2=3)

Ans: Some animals eat both plants and other animals. They are called omnivores. Bears and peacocks are omnivores.

- d. What are pet animals? How do pet animals help us? (2+1=3)

Ans: Some animals are kept as pets at homes. Dogs, cats and pigeons are some of them. Some animals such as dogs guard our homes. Cats are kept in homes to chase the mice away.

- e. Describe the stem of a tree. (3)

Ans: A tree has a hard, woody stem called the trunk. It helps the tree to stand straight.

SECTION – C

5. What is the difference between climbers and creepers? Give an example for each. (4+1=5)

Climbers take the support of objects to climb and grow. Example: pea plant/ money plant. Creepers grow along the ground. Example: Water melon/pumpkin.

6. Do all animals make a home for themselves? Where do such animals live? (1+4=5)

All animals do not make homes for themselves. These animals take shelter under the shade of trees or live in caves. For example deer and elephants take shelter under trees while lions and bears live in caves.

7. How are domestic animals useful to us? (5)

Domestic animals are useful to us in many ways. Some domestic animals give us food. Cows and goats give us milk. We make many things such as curd, butter, cheese, ghee and ice cream from milk. Hens and ducks lay eggs which we eat as food. Some of us cook and eat the flesh of some animals such as hens, goats and fish.

8. Name, draw and colour two things we get from plants.

Students will draw, name and colour two things we get from plants. (1+4=5)
